

American Recovery & Reinvestment 2009 Asheville, North Carolina Community Portfolio

Community Project Proposal Guidelines

This form is intended for use for proposing a community project that meets the intent and guidelines set forth in the American Recovery & Reinvestment Act of 2009. Complete text of the act is available at http://www.rules.house.gov/111/LegText/111_hr1_text.pdf. Information must be limited to the two pages included in this form.

Proposals may be submitted by:

- E-mail to economicrecovery@ashevillenc.gov;
- Fax to (828) 259-5499, or;
- Mail to P.O. Box 7148, Asheville, NC 28802, ATTN: Economic Recovery

If you require any assistance in preparing a project proposal or have questions about the process, please e-mail economicrecovery@ashevillenc.gov.

In the interest of government transparency and public participation, all submitted information will be made available to the community. Please do not submit information considered to be confidential or proprietary. Submitted proposals will be posted at www.ashevillenc.gov/economicrecovery for public review.

American Recovery & Reinvestment 2009

Asheville, North Carolina Community Portfolio

Project Information

1. Project Description

Please include a brief project description.

Engineering, Construction, Paving, and all other associated costs with the installation of 750 Linear Feet (LF) of 12-inch waterline on Brookside Circle, 7,650 LF of 16-inch waterline on Monte Vista Road / Sand Hill Road, 1,200 LF of 30-inch on Beaucatcher Road, 800 LF of 24-inch on College Street, 500 LF of 8-inch on Tunnel Road, and 500 LF of 12-inch on Swannanoa River Road.

2. Project Purpose

Please describe the project's public purpose and benefit.

This waterline installation projects target inefficiencies within the existing system and these inefficient areas have been identified for replacement and new lines in the City of Asheville's Water Master Plan. Completion of these installations will remove many bottle necks within the system and provide connection of minor transmission mains to major transmission mains where these connections are currently missing. This will greatly improve operational efficiencies, reduce operation and maintenance costs, provide more reliable water service and improve fire protection for residential and commercial customers in these areas.

3. Project Cost

Include the total project cost

\$4,925,000.00

4. Job Creation

Estimated number of jobs created by project.

30

5. Project Schedule

Include start and finish dates for the project.

November 2009 – November 2010

5a. Project Schedule

Can the project be contracted and commenced within 120 days? Please indicate yes or no.

No

6. Goal Alignment

Briefly describe how the project will achieve the goals of the American Recovery & Reinvestment Act.

- Job creation to aid in economic recovery
- Infrastructure investment to provide long-term economic benefits
- Energy efficiency to promote the green sustainable initiative
